

## Savanna School District

To be considered exposed to COVID-19, you need to be in close contact with a person who has the virus. Close contact includes being within 6 feet of a sick person with the virus for at least 15 continuous minutes with or without the use of a face covering, living in the same household, caring for a sick person with the virus, or being in direct contact with secretions from the sick person.

# School Nurse/Designee reports case to OCHCA Student should isolate at home for 10 days from symptom onset AND at least 24 hours fever-free without fever-reducing medication, AND overall improvement in symptoms.

The student may return to campus after 10 days from symptom onset AND at least 24 hours fever-free without fever-reducing medication, AND overall improvement in symptoms.

School Nurse will work with administration to notify close contacts of the need to quarantine. Anyone known to be a close contact (defined as being within six (6) feet for fifteen (15) minutes or more) to a COVID-19 case while contagious must be excluded from school for fourteen (14) days after last contact with the person with COVID-19. This exclusion requirement applies even if masks were worn if social distancing was not maintained.

# **Student Algorithm for COVID-19**

### Parent/Student reports experiencing one or more symptoms of COVID-19

Column 2

Student will be isolate at school by the School Nurse/Designee while awaiting pick up by the parent or guardian, or call 9-1-1 if life threating symptoms.

Student will be sent home per SAVSD Criteria. Parent will be recommended to see PCP.

Student should isolate at home for 10 days.

\*\*If symptoms are related to another condition as diagnosed by a physician, the student may return when they have met SAVSD Criteria for return for the condition, OR Negative COVID-19 test.

#### Column 3

Student reports someone at home has tested positive

This would be considered prolonged exposure to someone with COVID-19 or symptoms of COVID-19. Student cannot enter the building.

The student should quarantine, and avoid public spaces for 14 days beyond the family member being fever-free for 24 hours AND an overall improvement in symptoms. Student and parent should monitor for symptoms.

School Nurse will contact family to follow up and advise regarding student quarantine duration/return to school.

#### Column 4

Student has close contact with someone who has tested positive or has symptoms who is NOT in their household. This includes cohort groups such classes and daycare

Student should quarantine, and avoid public spaces for 14 days after their last exposure with the person testing "positive" for COVID-19.

If student develops symptoms, see isolation for those testing positive for COVID-19.

Notify cohort to monitor for symptoms.

If symptoms develop or test is positive for COVID-19 follow guidance under Column 1 or Column 2.

#### Column 5

Student reports someone in their home was exposed to someone who tested positive or has symptoms

Since Student did not have close contact with the infected person(s), Student does not have to do anything. They are a "contact" of a "positive contact" and may remain at school.

SAVSD Criteria for sending students home and return of students to school is based on current information form OCHCA, CDPH, CSNO, NSNO, and CDC.

OCHCA COVID Schools Response Team (800) 564-8448 - option 2, Monday - Friday 8:00 a.m. to 5 p.m. or CCICOVIDSchools@ochca.com

# **Employee Algorithm for COVID-19**

Column 1 Employee has symptoms COVID-19 **Employee** \*\*Employee reports reports while at symptoms while home at school/work \*\*Employee reports to supervisor and leaves to get medical care or call 9-1-1 if life threatening symptoms. Isolate if unable to immediately leave building Employee/ Supervisor contacts Human Resources (HR) HR and the School Nurse will provide guidance to employee regarding when they may return to work \*\*If symptoms are related to another condition as diagnosed by a physician, the Employee may return when they have met SAVSD Criteria

for return for that condition, or a

negative COVID-19 test.

School Nurse will work with administration to notify close contacts of the need to quarantine.

Anyone known to be a close contact to a COVID-19 case while contagious must be excluded from school for 14 days after last contact with the person with COVID-19.

This exclusion requirement applies even if masks were worn if social distancing was not maintained

Column 2

Employee test positive for

COVID-19

Employee/ Supervisor contacts HR

and HR contacts School

Nurse/Designee. Nurse/ Designee

contacts OCHCA

HR and the School Nurse will

provide guidance to employee

regarding when they may return

to work

Staff member may return to

campus after 10 days from

symptom onset AND at least 24

hours fever-free without fever-

reducing medication, AND overall

Employee reports someone at home has tested positive

Column 3

This would be considered prolonged exposure to someone with COVID-19 or symptoms of COVID-19. Employee cannot enter the building

Employee contacts HR. HR contacts School Nurse. School Nurse contacts OCHCA

HR and the School Nurse will provide guidance to employee regarding when they may return to work

Employee should quarantine, and avoid public spaces for 14 days beyond the family member being fever-free for 24 hours AND an overall improvement in symptoms. Employee should monitor for symptoms.

Column 4

Employee is a close contact

Employee/Supervisor contacts HR.

HR and the School Nurse will provide guidance to employee regarding when they may return to work according to OCHCA guideline

Employee should quarantine, and avoid public spaces for 14 days after their last exposure with the person testing "positive for COVID-19.

If employee develops symptoms see Column 1.

If employee tests positive for COVID-19, see Column 2

HR/School Nurse notify cohort to monitor for symptoms

HR contact is Albert Acosta (714) 236 – 3800 X805

Column 5

Employee reports someone in their home or workplace was exposed to someone who tested positive or has symptoms

Since Employee did not have close contact with the infected person(s), Employee does not have to do anything. They are a "contact" of a "positive contact" and may remain at school.

# Signs and Symptoms of COVID-19

- ☐ Fever 100.4 °F
